Maximize Your Profit!

- Why spend time and money making homemade soups when you can get the same great taste in just seconds at half the expense? Karma's "Souper-Max" post-mix soup dispensers will do just that. You will be maximizing your profits by decreasing your labor cost as well as your product waste.
- Only measuring 9-3/4" wide, these dispensers are sure to save valuable counter space. The versatility of the water source (waterline or portable) makes it possible to dispense soup wherever a 120 volt outlet is available. To meet the needs of higher volume accounts, the dispensers utilizes a separate mixing chamber for each flavor, preventing flavor crossover. These dispensers are also available in extra-volume models.
- You can't get a better value with an all stainless steel frame, as well as a stainless steel door. With the increasing popularity of the quick-serve industry, Karma's "Souper-Max" post-mix soup dispensers are sure to be a hit.

*Optional water tank lock down is available upon request.
