KARMA - MEETING THE DEMANDS OF THE BEVERAGE INDUSTRY

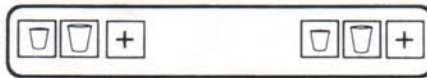

- The large variety of post-mix beverage products available in today's beverage market demands a dispenser with versatility. Karma's Café-Matic, Model 454 II, meets the requirements. Three versions are available.

counter applications

- The Model 454 II, two flavor, dispenser serves a delicious whipped and frothed cup of your customer's favorite hot powdered beverage. Favorite choices are the many flavors of cappuccino, chai, hot chocolate, hot cider and espresso.
- The slim compact design of 9 3/4" wide saves valuable counter space. The slim design, the ease of operation and the attractive colored trim packages make the Café-Matic, Model 454 II, the most requested post-mix dispenser available.
- The versatility of the water source (waterline connected or portable) makes it possible to serve a satisfying hot beverage wherever a 120-volt outlet is available. To meet the needs of high volume accounts, in the portable operation, the water tank capacity can be expanded with the use of a three-gallon water bottle kit.
- Options available are the ability to serve an iced beverage and a water tank lock down.
- Two choices of front doors are available: Black Molded and Stainless Steel.
