THE ONE AND ONLY . . .

The “First” bottle brewer looking post-mix coffee dispenser, for shelf stable liquid coffee concentrates, is Karma’s Model 622. The Model 622 merchandises liquid coffee in a way that makes it appealing to the customer. There is no way to make freshly “brewed” coffee more conveniently than with Karma’s new dispenser.

The Model 622 is ideal for filling decanters, airpots, and satellites. With the use of the Model 622, post-mix liquid coffee dispenser, labor savings and convenience is realized. Using a 30:1 liquid concentrate, 60+ decanters or 31 gallons can be served, per flavor, before reloading the concentrate.

The Model 622 features a separate hot water tap. The separate hot water tap is ideal for individual servings of tea bags, soups, hot chocolate, or wherever hot water may be required.

Karma’s Model 622 with its “bottle brewer look” is just what is needed to merchandise and serve a delicious cup of coffee using today’s liquid coffee concentrates. Liquid coffee is the wave of the future and the 622 can take you there.
