

# Tea Master II

TEA & NON-CARB  
LIQUID CONCENTRATE  
POST-MIX DISPENSER

*"A Commitment to Perfection"*

The TEA MASTER II utilizes the venturi dispense concept patented and pioneered by Karma in the mid 1970's. The TEA MASTER II is the most widely used iced tea dispenser of its kind. Karma's commitment to product perfection has resulted in the TEA MASTER II's international reputation as the most versatile and dependable tea and non-carbonated post-mix beverage dispenser available in today's market.

- Rugged stainless steel construction
- Consistent finished drink brix and taste
- Easily adjusted for concentrates of 3:1 ratio to 20:1
- Fast and consistent flow rate - up to 2 ounces per second
- No loose parts when loading concentrate
- Accepts concentrates with pulp content and sweetened and unsweetened concentrates
- Built-in pressure regulator compensates for waterline pressure fluctuations
- Mixing valve is easily removable for thorough cleaning
- Energy efficient and service free
- Counter saving compact design
- Ideal for cafeteria or counter service

for the food and beverage industries.

# Tea Master II

The TEA MASTER II series is designed to dispense a full range of liquid tea and other non-carbonated drink concentrates. Concentrates in their original containers, of up to one gallon, are placed inside the cabinet. By gently pushing a glass against the dispensing lever, the venturi mixing valve combines the concentrate and water in the proper ratio, creating a fresh sparkling glass of iced tea exactly the way your customers like it.

The Model 820, single flavor, and Model 830, two flavor, eliminate batch mixing or brewing. These automatic dispensers make as much product as you need, faster than any competitive dispenser. Designed for easy maintenance and incredibly simple service, the all stainless steel TEA MASTER II will give years of profitable and dependable service.
